
Social Skills for Kids

Small Group Counseling

The Program

Social Skills group will teach children foundational skills to help navigate social situations. Participants will learn tools to interpret the intention and motives of others, engage in perspective taking, and increase appropriate behaviors in various social situations. Ultimately, becoming more socially aware of the world around them. Group topics are also customized to the group's needs, which are identified through group screening and intake process.

Curriculum

This group is based on the work of Michelle Garcia Winner, Social Thinking Methodology[®] and Everyday Speech[®]

Who Can Benefit?

Children who are struggling with social skills, which may result from autism spectrum disorder, social communication disorder, and ADHD diagnoses.

*This program, including its leader, is not affiliated with, nor has it been reviewed, approved, or endorsed by Michelle Garcia Winner and Think Social Publishing, Inc.

Format

A small group of 4-5 children will meet once a week for 8 consecutive weeks. Group sessions will be 60 minutes. Group meetings are followed by brief parent information sessions, where we will review the skills, the children are learning.
